ELIGIBILITY

- Hospitals with an average debt service coverage ratio greater than or equal to 1.4 when calculated from the three most recent annual audited financial statements subject to certain recasting discussed below.
- Hospitals with an aggregate operating margin greater than or equal to zero when calculated from the three most recent audited financial statements subject to certain recasting discussed below.
- Borrowers must meet three of seven of the following criteria:
 1. The proposed refinancing would reduce the hospital's total operating expense by at least .25 percent;
 2. The interest rate of the proposed refinancing would be at least .5 percentage points less than the interest rate on the debt to be refinanced;
 3. The interest rate on the debt that the hospital proposes to refinance has increased by at least one percentage point at any time since January 1, 2008, or is very likely to increase by at least one percentage point within one year of the date of application;
 4. The hospital's annual debt service is in excess of 3.4 percent of total operating revenues, based on its most recent audited financial statement;
 5. The hospital has experienced a withdrawal or expiration of its credit enhancement, or the lender providing its credit enhancement has been downgraded, or the hospital can demonstrate that one of these events is imminent;
 6. The hospital is party to bond covenants that are substantially more restrictive than the Sec. 242 mortgage covenants;
 7. There are other circumstances that demonstrate the hospital's financial health depends upon refinancing its existing capital debt.

RECASTING

The average debt service coverage ratio and operating margin metrics can be recasted to:

- Apply projected new interest rate in lieu of historical rate(s).
- Substitute the fourth year of historical financials for one of the three years affected by exceptional, one-time events that substantially altered financial performance.
